CFAM

WORLD-CLASS FOOD AND FEED PROCESSING EQUIPMENT

RESEARCH & INNOVATION SINCE 1998 CFAM TECHNOLOGIES

1998	2000	2003	2007	2009	2015	2016	2017	2021	2023
Research project	First prototype built	First extruder sold	CFAM (Pty) Ltd established	TX-Series extruders launched	First turn-key plant completed	Move to new facilities	50th extruder delivered	Operating in 10 countries	100th extruder sold

DUST FILTER

MANUFACTURED IN ORIGIN SOUTH AFRICA

Technical information

- Automated reverse pulse air cleaning of bag filters
- Anti-static filters bags - 2.5m long (1m² surface area each)
- Number of filters dependent on air volume and dust load

Features

- Side or top removable filter options available
- Cyclone receiver (indirect air contact with filter bags, prolonged filter life)

Applications

- Suitable for conveying of product or dust aspiration applications
- Indoor/Outdoor application - all components are sealed
- Vacuum or pressure conveying application
